

Is your motorcycle or scooter an easy target for thieves?

Having your motorcycle or scooter stolen is expensive, inconvenient and frustrating. That's why it's essential to take appropriate measures to protect your valuable asset.

DataDotDNA[®] is a popular choice for those who wish to protect their motorcycle or scooter. Technologically advanced, easy to apply and cost effective, DataDotDNA[®] is the number one option for your motorcycle or scooter theft prevention needs.

What is DataDotDNA[®]?

DataDotDNA[®] is a security identification system that uses DataDots to protect your motorcycle or scooter from theft.

DataDots are tiny microscopic discs that contain unique information that's linked to your property and you. As small as a grain of sand, DataDots are recognised as being one of the most effective ways of preventing theft, and play a crucial role in the recovery and return of stolen motorcycles and scooters.

How does DataDotDNA[®] work?

- Thousands of DataDots are brushed onto various locations on your motorcycle or scooter.
- The unique code on each DataDot is then stored on a secure database, which can be accessed by police if your motorcycle or scooter is stolen.
- The DataDots are almost invisible to the naked eye, but can be detected by a UV light and magnifying device.
- It's virtually impossible to locate and remove all the DataDots, making it extremely difficult for thieves to sell your motorcycle / scooter or its parts without fear of being caught.
- Warning stickers act as a further deterrent to thieves.

What are the benefits of DataDotDNA[®]?

- ✓ **Easy application**
- ✓ **Cost effective**
- ✓ **Peace of mind** – If your motorcycle or scooter is stolen, its ownership is easily traceable via the secure DataDotDNA[®] database.
- ✓ **Proof of ownership** – The unique code on each DataDot links your motorcycle or scooter back to you, making it virtually impossible for thieves to sell it safely.
- ✓ **Insurance savings** – Enjoy a range of potential insurance discounts and incentives.
- ✓ **Awareness** – Crime Stoppers Australia and the police have acknowledged the effectiveness of DataDot technology in theft prevention.
